

## WHAT PATIENTS SAY ABOUT BIOFLEX LASER THERAPY

"I was diagnosed with discogenic pain in my lower back after a skiing accident. After only 6 treatments with BioFlex Laser I have regained 95% of normal function and my pain has gone completely."

- C. Mika

"After a single [Laser Therapy] session, I found almost 90% recovery and improvement. After 3 more sessions, I had close to 100% remediation and felt only a slight dull ache during the most aggressive activities out west – the Super G, GS and SL."

-C. Sadler

We have had great success treating the players acute and chronic inflammatory problems. Both patellar and plantar fasciitis are responding to treatment very quickly and we couldn't be more pleased.

-Ron Culp  
The Miami Heat

BioFlex Laser Therapy has achieved dramatic success rates in accelerating healing, resolving sports injuries, thereby eliminating pain.

## DID YOU KNOW THAT

- An estimated 4.27 million Canadians aged 12 years or older suffered an injury sufficiently severe to limit normal activity levels.
- In Canada, 35% of injuries occur during participation in some type of sports or exercise activity.
- Two out of three (66%) injuries among adolescents are linked to sports.
- Sprains and strains were, by far, the most common type of injury (51%) followed by fractures (17%).

- Statistics Canada. Canadian Community Health Survey Annual Component. 2009-2010 combined.)

## LASER THERAPY HEALS

- ✓ MUSCLE AND TENDON INJURIES
- ✓ SPRAINS, STRAINS AND TEARS
- ✓ FRACTURES
- ✓ ALL CONDITIONS WITH AN INFLAMMATORY COMPONENT

## WHAT IS LASER THERAPY

Laser Therapy utilizes LEDs and Laser diodes to treat tissues that have been traumatized or suffer from an extensive variety of pathologies.

It is designed to:

- accelerate the repair of muscle tissue
- delay the development of skeletal muscle fatigue
- improve muscle performance
- prevent muscle damage
- stabilize muscle function after high performance activities
- eliminate pain in cases of injury

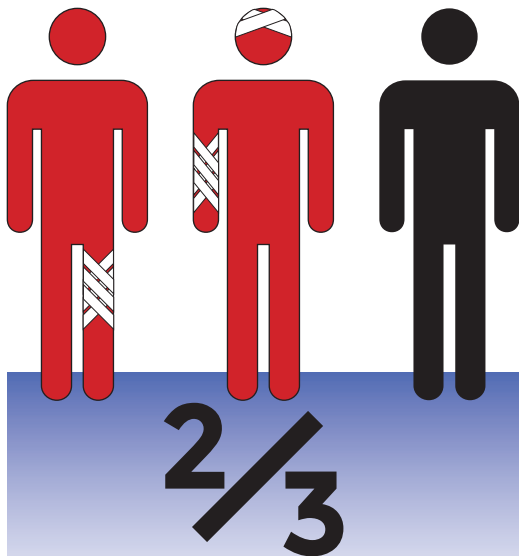

## HOW CAN BIOFLEX LASER THERAPY HELP

BioFlex Laser Therapy is a safe, effective and painless treatment that eliminates pain, improves joint mobility, reduces inflammation and regenerates new cartilage.

Class III Lasers are safe and effective and deliver consistent, positive clinical results. In addition, the protocols utilized are accurate and reproducible.

In over 3,000 scientific studies, there have been no reported side effects of using Laser Therapy, making it a non-invasive and non-toxic choice for treating a number of sports injuries.

Laser Therapy is utilized by many high profile sports franchises including the Toronto Maple Leafs, the Toronto Raptors, the Miami Heat and many individual athletes including gymnasts, dancers, jockeys and competitive skiers.

of injuries among adolescents were linked to sports.
